What You Buy With WAR BONDS

Down in the Solomon and on the African coasts the **Crocodile Boat** tank lighter played a most important role in landing our invasion armies. These self-propelled, light fast boats had tanks, artillery and other equipment from the big ships off-shore to the beach heads.

We need more and more of them, for they are essential to the successful operation of the war. They are made in several sizes from small 50-tonners costing about \$2,000 to the big 500-tonners costing about \$70,000. Your purchase of War Bonds every payday will help pay for them. U. S. Treasury Department
